Release Agreement – Mellow Yellow

For seed below Rupp quality standards

We are informing you that Mellow Yellow pumpkin lot number C661 (herein Seed) is below Rupp Seeds (herein Rupp) quality standards, in that it will produce up to 30% fruit that are somewhat larger in size with a “honey” color, which differs from the variety standard. Both the standard and non-standard fruit are uniform and likely still marketable in some situations. Even so, Rupp is offering the Seed at a 50% discount.

By signing this agreement, the Customer understands the Seed is below standard, agrees to purchase the Seed and understands the Seed is not returnable. The Customer further agrees to release Rupp of any and all claims or liability arising from the use of the Seed, and to indemnify and hold harmless Rupp from any claims by third parties arising out of the planting of the Seed.
